

Nafisa Ansari Python Developer | Software & Backend Enthusiast

✉ ansarinafisa555@gmail.com ☎ 7709377035 📍 Pimpri, Pune 🌐 LinkedIn 🐙 GitHub

PROFILE

BCA graduate (2026) with hands-on experience in Python development, backend fundamentals, and data processing. Skilled in building practical projects using Python, Flask, JSON, SQL, and APIs, with a strong interest in automation and scalable application development. Experienced in developing real-world projects involving recommendation systems, full-stack applications, and structured data handling. Passionate about problem-solving, clean code practices, and continuously learning modern technologies.

SKILLS

Technical Skills

- Python
- Flask
- SQL (PostgreSQL)
- JSON & APIs
- Pandas, NumPy, Matplotlib
- Scikit-learn
- Machine Learning (Basic)
- HTML, CSS, JavaScript
- OpenCV (Basic)

Tools

- VS Code
- Jupyter Notebook
- Git
- GitHub

Core Concepts

- Object-Oriented Programming (OOP)
- Backend Development
- SDLC
- Data Processing
- REST APIs
- Problem Solving
- Debugging

PROJECTS

MeetZy 📁, Find New Friends Locally, Python, Flask, SQL, HTML, CSS, JavaScript

- Developed a full-stack web application focused on event discovery and meetup management.
- Implemented backend logic, routing, database integration, and user interaction workflows using Flask.
- Designed responsive frontend pages and structured application flow for improved user experience.
- Worked on data handling, authentication logic, and scalable backend structure.

House Price Prediction System, Python, Scikit-learn, Pandas, Numpy, Matplotlib

- Built a machine learning model to predict house prices using regression techniques.
- Performed data cleaning, preprocessing, and feature selection on housing datasets.
- Used Pandas, NumPy, and Scikit-learn for model training and evaluation.
- Visualized trends and prediction results to analyze model performance.

People You May Know 📁, Recommendation System - Python, JSON

- Built a mini recommendation system that suggests user connections using mutual-friend logic similar to social media platforms.
- Cleaned and processed messy JSON data using core Python without external libraries like Pandas or NumPy.
- Implemented structured data handling, filtering, and recommendation logic using dictionaries, loops, and conditional operations.
- Strengthened understanding of raw data processing, problem-solving, and backend scripting fundamentals.

EXPERIENCE

Campus Ambassador, Entrepreneurship Development Cell (EDC), IIT Delhi

12/2025 – 02/2026

- Promoted entrepreneurship initiatives and coordinated outreach campaigns.
- Ranked among top-performing Campus Ambassadors during tenure.
- Contributed to increased engagement and event participation for BECon 2026.
- Awarded Letter of Recommendation from eDC IIT Delhi for performance and contribution

Remote

EDUCATION

Bachelor of Computer Applications, Dr. D.Y. Patil Arts, Commerce and Science College

2023 – 2026

- 8.73 SGPA
- BCA Graduate (Results Awaited)

Pimpri, Pune

12th HSC(Science), Priyadarshani Jr. College

2023 – 2023

- 60.33%

Indrayaninagar, Pune

10th SSC, Priyadarshani Eng. medium school

2021 – 2021

- 84.40%

Indrayaninagar, Pune

CERTIFICATES

- Technology - Deloitte (Forage)
- Data Analytics - Deloitte (Forage)
- Solutions Architecture - AWS (Forage)
- Course Completion+ Internship + Project Completion - Yhills Edutech Pvt. Ltd.

AWARDS

Google Cloud Arcade Challenge, Google

01/02/2025

- Won rewards and cleared Google Cloud Arcade Challenge

2nd Prize - Poster Making Competition, College Level
